RCA

Changing Entertainment. Again.

www.rca.com

This RCA HD|Digital Receiver is capable of receiving most broadcast and DIRECTV® satellite signals currently available.

The RCA HD|Digital Receiver is capable of processing the highest resolution format HDTV signal. This receiver gives you the ability to receive a wide array of programming options including current local broadcast and high-definition (HD) broadcasts where available. In addition, the DTC100 will receive and decode standard digital and high-definition DIRECTV® programming.

Local Analog

Receive all local standard analog broadcasts with your current indoor or outdoor antenna.

Local Digital

Receive local digital broadcasts using your current indoor or outdoor antenna.

DIRECTV® Satellite

Receives DIRECTV® programming using a satellite dish antenna (sold separately). With a subscription to DIRECTV®, you will have access to hundreds of channels including DIRECTV® HD and digital programming.

Analog Cable

The DTC100 is also cable ready—it will accept the coaxial cable from your local service provider.

The RCA HD|Digital Receiver lets you make the transition to the future of television—TODAY!

- Allows you to use your current television as well as full high-definition displays.
- The HD|Digital Receiver provides easy-to-use on screen menu systems for easy navigation.
- Dolby Digital¹ Surround Sound Capability²
- On-Screen Program Guides, both 5 and 7 lines.
- Interactive Channel Banner
- Format Control (4:3 and 16:9)

Compatible with a wide variety of TVs and Display Monitors:

Programming

Enjoy digital programming now, and high-definition programming as it becomes available.

DIRECTV® currently provides access to over 210 channels of **digital** entertainment choices. That means more movies, sports, music, news and information than you'll find on cable or any other digital TV service—including all the popular TV and music networks, your favorite premium movie channels, 31 commercial-free Music Choice audio channels, up to 55 pay per view movie choices a night and optional pro and college sports subscriptions. The DTC100 will also receive DIRECTV® high-definition programming as it becomes available. (Programming sold separately)

Satellite dish antenna sold separately. Professional installation advised.

Sound

Dolby Digital¹ Surround Sound Capability

The revolutionary sound system offers 5.1 channel Dolby Digital¹ surround sound capability with up to five full channels and a sixth low-frequency-effects (subwoofer) channel.

Remote

Master Touch[®] Glo-In-The-Dark Remote (CRK76CA2)

New ergonomic design with glo-in-the-dark buttons provides control of primary functions of virtually every brand of remote-controllable TVs, VCRs and satellite systems.

Convenience

Easy-To-Navigate On-Screen Menu System

- **Full Five-Line Program Guide**

Provides channel, program title and detailed program description for five different channels covering a two-hour time window. Arrows help indicate programs that started before or ended after the current time shown on the grid.

- **Full Seven-Line Program Guide**

Provides channel and program title information for seven different channels covering a two-hour time window. Arrows help indicate programs that started before or ended after the current time shown on the grid.

- **Interactive Channel Banner**

The translucent, see-through Interactive Channel Banner makes access to the key features of the System fast and easy. We've taken the most exciting features, created icons for each of them, and positioned them in the banner for direct access.

Connections

- **Coaxial RF Inputs (2)**
Connect your outdoor antenna or cable to Antenna A or B input.
- **A/V Outputs (2 sets)**
Connect to your television or VCR.
- **S-VHS Output**
Improve picture performance to TV or VCR.
- **Satellite Input**
Connect to an RCA satellite dish (sold separately) to receive DIRECTV® programming.
- **Optical Dolby Digital¹ Output**
For connection to a Dolby Digital¹ receiver.
- **HD Monitor Output (VGA Connector — RGB)**
Connect to High-Definition Digital Display.
